## GLUE DOTS® Products

### Standard Tack Level:

Tack Level refers to the aggressiveness of the adhesive. Super High Tack typically creates a permanent bond, while Low or Medium Tack is considered removable.

### Standard Profile:

Profile refers to the dot's thickness. Available in three standard profiles: LOW, MEDIUM, & HIGH

Glue Dots® recommends adequate testing to ensure proper bond and release properties. Glue Dots® will assist you throughout the testing process and will provide product samples to ensure performance.

\*Contains oil, test absorbent surfaces for staining

Low profile Glue Dots® are thin and used to bond level items. Medium and High Profiles are used to create or bridge gaps between substrates.

### Important Notice to Customer

User shall determine the suitability of the product for their intended use and user assumes all risks and liability whatsoever in connection therewith. All statements, technical advice, and recommendations contained herein are based on tests believed to be reliable, but the accuracy thereof is not guaranteed, and the following is made in lieu of all warranties, express or implied: seller's and manufacturer's only obligation shall be to replace the quantity of product proven to be defective. Neither seller nor manufacturer shall be liable for any injury, loss or damage, direct or consequential, arising out of the use of or the inability to use the product. No statement or recommendation not contained herein shall have any force or effect unless in an agreement signed by officers of seller and manufacturer.

### Important Notice to Purchaser

Before using, user shall determine the suitability of the product for their intended use, and user assumes all risk and liability whatsoever in connection therewith.
